

VOLCANO ISLAND

"Turn-based strategy game with real-time fun!"

www.LittleShopOfAdventures.com

You should carry the people to nearby **ships**. Once arrived to the ship, the person is saved and you gain bonus moves.

Sharks can eat swimming people.

In Level 2, **airplanes** drop parachutes containing lifeboats.

The **forest** will start to melt away after the beach. So this place is safe for some turns.

The **hexagons** with more neighborhoods to the sea will melt away first. This hexagon has 4 neighborhoods, so this place is riskier than others.

A **non-swimmer** is displayed with this symbol. You should accompany them with a swimmer.

You can also use **helicopters** to rescue people. They carry up to 4 people and appear in Level 3.

Octopuses can eat swimming people and the boats on the sea. The most dangerous creature in the game.

Boats carry two people. Simply drag and drop people into the boats, and carry the boats to the ships.

Some **ships** arrive later in the game. This ship will arrive after 5 turns.

5 TURNS

Menu button. Also from here, you can **skip your turn**, which may be useful sometimes.

Level 1
ALIVE SAVED KILLED

Moves Left 5

Points are important. You gain **bonus moves** each 50, 100, 150, ... points.

Your **lives**. When you're out of tolerable losses, your game is over.

Each turn, you have certain amount of **moves**. In general you have 3. But you can increase it by **bonus moves** which can be obtained by rescuing people.
